

PRASANJIT GHOSH

B.Sc. Mathematics Honours Student | Web Technology & Java Learner
abhayghosh750@gmail.com | github.com/Prasanjit64

PROFILE

A curious and analytical **2nd-year B.Sc. Mathematics Honours student at Surya Sen Mahavidyalaya**, with a growing interest in Java, web development, technology, and problem solving. My mathematical background strengthens my logical reasoning and analytical approach, while practical web projects help me turn ideas into working digital experiences. I am continuously learning, experimenting with technology, and building skills for a future in the technology field.

EDUCATION

B.Sc. Mathematics Honours

Surya Sen Mahavidyalaya

2nd Year — Currently Pursuing

Higher Secondary — Class 12

Raiganj Debinagar Kailash Chandra Radha Rani Vidyapeeth

Stream: **PCMB — Physics, Chemistry, Mathematics & Biology**

Secondary Education — Class 10

Damdama High School

School Education — Classes 5–8

Dalkhola High School

TECHNICAL SKILLS

Programming: Java • **Web Development:** HTML, CSS, JavaScript • **Web Design:** Responsive Web Design • **Problem Solving:** Mathematical & Logical Reasoning • **Other Strengths:** Analytical Thinking, Research, Communication, Curiosity, Continuous Learning

PROJECTS

Personal Portfolio Website

A personal portfolio created to present my academic background, technical skills, interests and projects online.

Portfolio Website — Version 2

A redesigned portfolio project focused on improving presentation and web experience.

Portfolio Website — Version 3

A further iteration of my portfolio demonstrating continuous experimentation with modern web design and development.

AREAS OF INTEREST

Mathematics & Mathematical Thinking • Web Development & Web Technology • Java & Programming • Current Affairs • Geopolitics • Indian Politics • Technology & Digital Innovation

CORE STRENGTHS

Logical Thinker • Problem Solver • Fast Learner • Curious Mind • Analytical Approach • Continuous Improvement

CAREER OBJECTIVE

To build strong expertise at the intersection of **mathematics and technology**, continuously develop my programming and web-development skills, and create useful digital solutions while contributing positively to society.
