

PRASANJIT GHOSH

B.Sc. Mathematics Honours Student | Web Technology & Java Learner

abhayghosh750@gmail.com • +91 92420 83963 • github.com/Prasanjit64

PROFILE

A curious and analytical 2nd-year B.Sc. Mathematics Honours student at Surya Sen Mahavidyalaya, with a growing interest in Java, web development, and technology-driven problem solving. A strong mathematical foundation sharpens logical reasoning and analytical thinking, while hands-on web projects turn ideas into working digital experiences. Continuously learning and experimenting with new tools while building a long-term skill set for a career in technology.

EDUCATION

B.Sc. Mathematics Honours <i>Surya Sen Mahavidyalaya</i>	2nd Year — Ongoing
Higher Secondary (Class 12) — PCMB <i>Raiganj Debinagar Kailash Chandra Radha Rani Vidyapeeth</i>	Completed
Secondary Education (Class 10) <i>Damdama High School</i>	Completed
School Education (Classes 5–8) <i>Dalkhola High School</i>	Completed

TECHNICAL SKILLS

Programming: Java

Web Development: HTML, CSS, JavaScript

Web Design: Responsive Web Design

Problem Solving: Mathematical & Logical Reasoning

Other Strengths: Analytical Thinking, Research, Communication, Curiosity, Continuous Learning

PROJECTS

► MediCare AI — Healthcare Appointment Platform

An AI-assisted healthcare coordination web app enabling patients to find doctors, book video/in-person appointments, manage medical documents with AI-generated plain-language summaries, and message their care team. (try-a7p1.vercel.app)

► Calculator Web App

A responsive browser-based calculator built with HTML, CSS, and JavaScript, supporting standard arithmetic operations with a clean, user-friendly interface.

► Personal Portfolio Website (v1–v3)

A series of iterative portfolio websites presenting academic background, technical skills, and projects — each version refining the visual design and web experience. (github.com/Prasanjit64)

AREAS OF INTEREST

- Mathematics & Mathematical Thinking
- Web Development & Web Technology
- Java & Programming
- Current Affairs, Geopolitics & Indian Politics
- Technology & Digital Innovation

CORE STRENGTHS

Logical Thinker • Problem Solver • Fast Learner • Curious Mind • Analytical Approach • Continuous Improvement

CAREER OBJECTIVE

To build strong expertise at the intersection of mathematics and technology, continuously develop programming and web-development skills, and create useful digital solutions while contributing positively to society.
